

SHULIN SARASWAT

+44 7405341260 | shulin.saraswat25@imperial.ac.uk | in/shulinsaraswat/

FinTech engineer with 5 years of hands-on experience delivering scalable payments platforms and data infrastructure at Standard Chartered. Skilled in backend systems, cloud architecture, and API design, with academic grounding in quantitative finance and ML through an MSc at Imperial College London. Looking to bring both engineering rigour and financial domain knowledge to a forward-thinking technology team.

PROFESSIONAL EXPERIENCE

- Imperial Business School: Student Investment Fund (SIF)** **London, UK | Oct 2025 – Present**
Quantitative Engineer
- Building production-grade data pipelines and research toolkit (DataHub) for systematic trading and backtesting, processing live market and fundamental datasets.
 - Designing clean, versioned datasets to support scalable quant research.
- Standard Chartered** **Chennai, India | Apr 2024 – Aug 2025**
Senior Analyst, Development
- Led integration of ATOM workflow engine with Service Bench, reducing end-to-end processing latency by ~40% across financial operations. Coordinated delivery across 10 - 15 cross-functional engineering teams.
 - Identified 15+ cross-component compatibility issues; defined scalable integration patterns influencing platform architecture.
 - Implemented modular frontend and API integrations using LitElements and GraphQL for extensible system design.
- Standard Chartered** **Chennai, India | Apr 2023 – Mar 2024**
Senior Developer
- Re-architected ATOM UI using React/EmberJS, reducing load times by 30% and improving usability for 200+ daily users.
 - Designed and deployed a real-time, data-intensive inbox module enabling faster transaction and operational throughput.
 - Improved application performance through efficient state management and API optimisation.
- Standard Chartered** **Chennai, India | Sep 2020 – Mar 2023**
Developer – Technology & Innovation
- Migrated monolithic platform to AWS-based microservices, improving scalability, resilience, and infrastructure efficiency.
 - Built enterprise search platform aggregating 2,500+ workflows, enabling leadership to identify bottlenecks and optimise resource allocation.
 - Performed database tuning and query optimisation to improve system responsiveness in high-volume environments.

EDUCATION

- Imperial College London** **London, UK | Aug 2025 – Jun 2026**
MSc in Financial Technology (Merit – 68%)
Modules: Systematic Trading Strategies with Machine Learning Algorithms, Machine Learning & Finance, Big Data in Finance, Blockchain and Applications, Financial Econometrics,
- Vellore Institute of Technology** **Vellore, India | Jul 2016 – Jun 2020**
B.Tech in Electronics and Communication (IoT & Sensors) (8.56/10.0)
Modules: Data Structures, Statistics, Applied Linear Algebra, Applied Numerical Methods, Cloud Computing

ACHIEVEMENTS & LEADERSHIP

- President, IB India Business Career Club, Imperial College London** **London, UK | Sep 2025 – Present**
- Leading career initiatives, speaker events, and industry networking for a 100+ member community across Finance, Consulting, and Technology.
- Chair, Student Staff Committee (SSC), Imperial College London** **London, UK | Sep 2025 – Present**
- Representing student voice to faculty, driving structured feedback loops to improve academic experience for the MSc FinTech programme.
- Student Ambassador (MSc Financial Technology Program), Imperial College London** **London, UK | Sep 2025 – Present**
- Promoting the Business School at outreach events, supporting recruitment and fostering community engagement.

SKILLS

Programming Languages: Python (NumPy, Pandas, scikit-learn, statsmodels), Java, SQL, JavaScript
Framework & Tools: React JS, Ember JS, PostgreSQL, REST APIs, GraphQL, Data Pipelines
Cloud & Systems: AWS (Certified Cloud Practitioner), Microservices Architecture
AI & Developer Tools: GitHub Copilot, Claude Code, OpenAI Codex, ChatGPT - used for code generation, debugging, and accelerating engineering workflows
Finance & Quant: Market Data Analysis, Backtesting, Financial Modelling, Portfolio Analytics, Systematic Trading
Certifications: Bloomberg Market Concepts (BMC), Bloomberg ESG, Bloomberg Finance Fundamentals
Delivery: Agile/Scrum, Jira, ADO, Confluence

EXTRA-CURRICULAR & INTERESTS

- Mentorship: Guided new hires in Standard Chartered's Buddy Program, improving onboarding and team engagement
- Awards: Going the Extra Mile Award (Standard Chartered) for mentorship, collaboration, and team impact
